Endowed chairs and professorships

Supporting excellence in higher education

Endowed chairs and professorships are the gold standard in higher education for attracting and retaining superior faculty. These highly coveted distinctions recognize exemplary achievement, and attract individuals who contribute to the excellence of the school and its programs through teaching, research, and service. Most importantly, these positions attract leading scholars who inspire and engage our students as role models, mentors, and advocates.

The market for top academic talent is extremely competitive, and faculty funding is a costly area of operations. Securing philanthropic support for faculty is a top priority, needed to rival the other great institutions vying for superior talent in higher education. Endowed chairs and professorships position the W. P. Carey School of Business to attract and retain the world-class scholars who make a difference in the lives of our students, as well as the future of our world.
