

Entrepreneurial Advisory Board Membership Benefits

The Center for Entrepreneurship Executive Advisory Board is a select group of prominent business founders, leaders, executives and partners with a passion for utilizing Entrepreneurship to advance our stakeholders' educational engagement and outcomes. Board members serve as a philanthropic advisory group for the director and act as advocates for our Center [and programming] in their communities and networks.

Board Members play a role in shaping the future of entrepreneurship and new business design engagement at ASU's W. P. Carey School of Business; in part through their ability to engage in the ideation, design, implementation and enhancement of current and future programming.

Members of this board engage with the business school and benefit in the following ways:

- Provide insight to the Center and shape the response to critical issues such as ensuring programming is current and relevant to the current/emerging business environment, creating viable experiences that are applicable inside and outside of the University environment, and increasing engagement and employment opportunities for our program participants
- Student Leadership Opportunities: Board members may serve as Mentors, or Advisors, for programming run through and in collaboration with the Center for Entrepreneurship at W. P. Carey; in addition to guest lecturer, speaker and competition judging opportunities
- First right of refusal on sponsorship opportunities within the Center's entrepreneurship programming, such as new venture competitions, experiential learning and annual events.

Responsibilities

Members of this board agree to provide support in the following ways:

- Representation. We regularly share our goals, updates, achievements and challenges through regular updates; and we look to board members as ambassadors who help us to share our successes and increase our reach to others.
- Philanthropic leadership. Members invest time and financial resources in support of Entrepreneurship at the W. P. Carey School. Member dues are invested to enhance initiatives that attract, engage and enhance the entrepreneurial experiences of students, staff and faculty.
Annual board member dues are \$5,000*
