

Doug Schumann
FP&A Solutions Global Process Owner - Forecast and Allocations Controller
Intel Corp

In his current role, Doug Schumann owns the end to end forecasting process across the company for all aspects of the P&L. Previous job functions include Corporate Capital Controller managing all company capital business functions (\$12B+) and Fab 42 Construction Controller supporting assembly of the latest state of the art high volume semiconductor factory. In these roles Doug interfaced with most finance functions across the company including Global Accounting, Corp Planning, Tax, Treasury, M&A, Investor Relations, External Reporting, Accounts Payable, Operations and Capital finance and influenced Intel's manufacturing roadmap. Areas of expertise include business process optimization, strategic financial planning, construction project controls, manufacturing finance, SOX compliance, management reporting and capital accounting.

Growing up in the Phoenix area, Doug graduated with a BS in Electrical Engineering and completed his MBA from Arizona State in 1994. After a brief stretch at Motorola, Doug has been part of the Intel finance organization since 2000. He was the ASU Intel Finance Recruiting Team Lead for several years. In his spare time, Doug both plays and attends multiple types of sporting activities and has been an ASU football season ticket owner since the '70's.
